## Professional Summary

Dedicated Front-End Developer skilled in HTML, CSS, JavaScript, Bootstrap, Tailwind, and WordPress, with experience in Canva, Photoshop, and AI-based creative design. I am eager to deepen my knowledge in advanced JavaScript concepts, API integration, and databases to grow as a full-stack professional and contribute effectively to dynamic projects.

## Website development (Webtechs It Solutions)

## Experience

AUGUST 2025 – NOVEMBER 2025

- Developed responsive and user-friendly web pages using HTML, CSS, and JavaScript.
- Created modern, mobile-optimized UI designs with Bootstrap and Tailwind CSS.
- Customized and maintained websites using WordPress, including themes and plugins.
- Designed creative graphics, banners, and layouts using Canva and Adobe Photoshop.
- Utilized AI tools to generate innovative design concepts and enhance visual content.
- Improved website performance, layout, and overall user experience across devices.
- Ensured clean, structured code and cross-browser compatibility for smooth functionality.
- Collaborated on UI/UX improvements and front-end styling for various projects.

## Projects

### SCISSORS-PAPER-ROCK GAME

- Developed an interactive RockPaperScissors game with score tracking and dynamic UI.
- Implemented using JavaScript for conditionals, event handling, and DOM manipulation.

### WEATHER WEB APP

- Built a responsive weather app fetching real-time data via OpenWeatherMap API.
- Displayed temperature, humidity, wind speed, and conditions with a clean UI.
